

Every 5 May: WHO, bringing people together to improve & sustain hand hygiene

Through hand hygiene improvement, **SAVE LIVES: Clean Your Hands** galvanizes action at the point of patient care to reduce health care-associated infection. Every 5 May, we take this action together.

To help improve and sustain hand hygiene compliance and reduce infections in your health-care facility, please visit <http://www.who.int/gpsc/5may/en/index.html> or contact us: savelives@who.int

REMEMBER YOUR 5 MOMENTS FOR HAND HYGIENE
